

# Level Plus®

Magnetostrictive Liquid Level Transmitters  
with Temposonics® Technology

## CHAMBERED Application Data Sheet

1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	
L	P	C						1	X	X	0	X										

To build the sensor model number in the fields provided above, download the product specification/data sheet from the following CHAMBERED product page link and refer to the document's "ORDER CODE":

<https://www.temposonics.com/Products/LiquidLevelTransmitters/CHAMBEREDtransmitter>

Customer signature:

Phone number: (    )

E-mail address:

Please e-mail this completed application data sheet and purchase order information to: [orders@temposonics.com](mailto:orders@temposonics.com)

### NOTICE

- For inactive zone from the tip of the transmitter, refer to the illustration.
- 4...20 mA setpoints are set at the "Minimum" or "Maximum" positions unless otherwise specified. "Minimum" is set to 74 mm (2.9 in.), as standard. "Maximum" is set to order length.
- For an inverted level transmitter, make sure to invert 4...20 mA setpoints. Length should reference from the tip of the pipe.
- The maximum order length is 3658 mm (144 in.). Consult factory for longer lengths.
- Measuring range and order length should equal center to center dimension.
